

Collaborative Health Governance Program

October 18-21, 2023

Virtual delivery

Acquire the right competencies and skills needed to navigate in the new world of healthcare governance

The Collaborative Health Governance (CHG) program has been designed with an understanding of the new world of governance, and the unique responsibilities and challenges confronting today's health and social service sector boards.

Our experiential approach is to learn via doing through case studies, active dialogue, and best practice examples.

Program Highlights

- The Collaborative Health Governance (CHG) program enables participants to combine "real time" best practice principles and strategic frameworks with needed behavioural competencies
- Leverages the reputation and the 20-year governance experience of The Directors College at McMaster
- Exposes participants to best practice principles, structures and practices
- Allows participants to co-design new approaches to health governance and put theory into practice

Virtual Sessions

- Board Diagnostic - What Sort of Board Do We Want to Be?
- Developing High-Performing Healthcare Boards
- Navigating the Line Between Strategy and Operational Effectiveness
- Understanding the Legal World of Health Governance: Risks, Liabilities and Challenges
- Emerging Issues in Healthcare Governance
- Shared Decision-Making to Get Things Done
- Strategic Stakeholder Engagement (OHT focused case study)
- *A View From the Top* - Conversation with Health Governance Leaders
- Design Thinking for Health Governance
- Faculty Office Hours - additional time to ask the expert

Co-designed with our health governance communities

People attending who are experienced and are innovative. Networking opportunities. Speakers who bring lived experience, who inspire and motivate. - [Marianne Walker, President & CEO, Guelph General Hospital](#)

Measuring what matters - moving away from 'widget counting' and into meaningful indicators would be great to learn more about. - [Kavita Mehta, CEO, Association of Family Health Teams of Ontario](#)

The Format

- The CHG program is designed as a highly interactive, 3.5-day, virtual learning experience using The Directors College proven delivery model.
- 90-minute learning sessions are led by experienced governance experts, health care leaders, and board directors

Key Learnings

- Understand the foundations for good governance
- Identify gaps in best practice approaches that may exist at your own board
- Enhance your ability to engage with management and other key board partners particularly around complex multi-stakeholder issues
- Understand your potential liabilities and exposures as a board director and how to mitigate them
- Contribute to the future of health governance in Canada through co-designing a pathway to better governance approaches and models

The Directors College

For more than 20 years, The Directors College has been equipping directors of public and private sector organizations, not-for-profit and Crown corporations with the practical tools, knowledge and credentials to make a positive immediate impact in the boardroom

Co-designed with our health governance communities

Networking and knowledge sharing among participants; ways to stay connected post program; case studies.

Jessica Logozzo, Vice President, Strategy &
Regional Transformation, Thunder Bay Regional Health
Sciences Centre & Northwestern Ontario Hospitals

The Ideal Candidate

- o Individuals currently sitting on boards, or who intend to serve on a board, and those who work with boards of directors
- o Healthcare leaders seeking to improve boardroom skills, expand knowledge of good governance, and become high-performing board directors
- o Individuals who work closely with boards

Credentials

This program can be taken as a stand-alone (Certificate of Completion) or as part of The Directors College, Chartered Director (C.Dir.) Program which requires completion of 4 additional modules and a 90-minute, virtual governance workshop.

The Fee

- o CAD 4,370
- o Fee inclusive of all materials, certification of completion as Health Governance/The Directors College graduate and participation in HLA, TDC and other relevant McMaster alumni events
- o Select bursaries are available
